Council of Concerned Citizens (C³) Inaugurates “Exit the UN” Campaign Trump Must Withdraw US from UN to Keep His Campaign Promises

20 January 2025 – Washington DC

Every problem which newly inaugurated President Donald J. Trump promised to fix exists only because the US complies with destructive United Nations (UN) policies and programs. Illegal migration, human trafficking, child mutilation, gender ‘ideology’, endless wars, economic destruction and preventable chronic illness are the direct result of specific UN policies and programs. In addition, US sovereignty and Constitutional guarantees are directly threatened by continued US participation in the UN.

Trump cannot keep his promises to fix America’s problems *while* the US is a member of the UN. He can only keep those promises, and protect US Constitutional sovereignty, by exiting the UN, including all of its agencies and programs. President Trump has the authority to withdraw the US by writing a simple “Exit The UN” letter.

The Council of Concerned Citizens (C³) mission is to marshal public and Congressional support to compel President Trump to write that letter.
